Information

Use the Add Standby Database wizard to configure a Data Guard environment.

[Add Standby Database](#)

Data Guard

Enterprise Manager provides comprehensive Data Guard setup, management, and monitoring capabilities, including:

- Easy creation and management of physical and logical standby databases
- Centralized control of primary and standby databases via Data Guard broker
- Built-in monitoring, alert, and control capabilities
- Automated switchover and failover operations
- Integrated support for Oracle Real Application Clusters
